PRODUCT INFORMATION

Combinations galore – the BALPRO 1 universal bellows

The NOVOFLEX BALPRO 1 universal bellows is the most versatile bellows on the market. With its complete adapter ring system it supports almost any combination of lens and camera systems. You can combine most middle-format lenses and nearly all 35 mm lenses and special lenses with any size camera body up to 6 x 7 format. Thanks to its compact dimensions, the BALPRO 1 is also ideal for on the road and in the field.

It is possible to create a fully automatic bellows for the CANON EOS system by combining the BALPRO 1 with the automatic reversing ring for EOS from NOVOFLEX (EOS-RETRO).

TECHNICAL DATA

Order code:	BALPRO 1
Size:	h = 150 mm (5.9"), b = 115 mm (4.52"), l = 200 mm (7.87")
Weight:	755 g (1.6 lbs)
Minimum extension:	40 mm (1.57")
Maximum extension:	192 mm (7.55")

* To get an automatic bellow for Canon EOS you need the following combination to connect:

EOS-RETRO	EOS/PRO	PRO/EOS
-----------	---------	---------

NOVOFLEX offers three special lens heads (Componon S) by Schneider in Bad Kreuznach for the BALPRO 1 bellows. These lens heads are flush-mounted permanently on the bellows. 3 focal lengths are available:

Componon-S 4,0/80 mm Order code: | PRO 80

Componon-S 5,6/100 mm Order code: | PRO 100

Componon-S 5,6/150 mm Order code: | PRO 150

These three lens heads allow adjustment to infinity with all cameras: 35 mm SLR cameras require the 80 mm lens head, the Mamiya 645 the 100 mm lens head, and Hasselblads the 150 mm lens head. The setting for 35 mm cameras ranges from infinity to 1.8x enlargement.
