PRODUCT INFORMATION

BALL 19

# Ball 19 | Ball 19P | Neiger 19 | Neiger 19P

NEIGER 19

The compact and sturdy ball heads 19 and 19 P (BALL 19/BALL 19P) hold equipment up to 3 kg / 6.6 lbs without problems. The version "P" adds a separate lock for the panorama function.

The ball heads NEIGER 19 and NEIGER 19P are supplied with a special flash-shoe. With these ball heads not only can flashes be positioned accurately, but also video lights, lighting gobos, measuring instruments and much much more.

The NEIGER 19P also possesses a panorama lock knob.

All four tripod heads are universally applicable; we recommend them particularly for the NOVOFLEX universal clamps 26 and 42 (UNIKLEM 26/UNIKLEM 42), the NOVOFLEX mini tripod (MICROPOD) and the NOVOFLEX monopod (BB-STOCK).

# Ball Heads 19 | 30 | 40

## **BALL 30 | BALL 40**

The two newest ball heads 30 and 40 (BALL 30 / BALL 40) easily prove their stability and high precision. The pan rotation over 360° is locked with a knob.

The ball head 30 (BALL 30) holds equipment up to 5 kg / 11 lbs, the ball head 40 (BALL 40) up to 10 kg / 22 lbs without any problems. Characteristic is the grease-free operation of the ball, which eliminates problems with dust and dirt. Noncorrosive materials make both balls genuine outdoor products. The ball heads 30 and 40 (BALL 30 / BALL 40) are the ideal addition to the NOVOFLEX universal clamps (UNIKLEM) and the NOVOFLEX mini tripod (BASIC BALL).
